

## **eLearn Campus Peer Network for E-Learning Professionals (Feb 15)**

### **Vancouver, British Columbia — Feb. 15**

eLearn Campus, a full-service e-learning company that provides custom solutions and offers a unique certificate in e-learning management, has launched the eLearn Campus Peer Network.

The eLearn Campus Peer Network is targeted at organizations from across North America that are serious about e-learning.

Each member of the network is allocated three “seats” on the network, which combines synchronous and asynchronous learning with day-to-day project support.

Each network member has access to:

- Monthly best practice online workshops delivered through eLearn Campus’ synchronous learning technology.
- Ongoing support through the eLearn Campus Community of Practice, which will run on eLearn Campus learning management system.
- Access to three core courses of the eLearn Campus certificate in e-learning management, a program that is recognized at the university level and has been taken by learning professionals from around the world.
- An annual two-day, live workshop on excellent e-learning and how to apply best practices to projects.
- The eLearn Campus Peer Network is now accepting application for membership and is slated for launch in March.
